

# HD Track NEW

## HEAVY DUTY TRACK FOR TUBS, CANOPIES AND OTHER CUSTOM FITS

For those who demand more out of custom mounting applications, HD Tracks allow you more diverse mounting options. SkyLine™ towers, OverHaul™ HD or OutPost™ HD systems can be mounted to ute beds, overlanding trailers and other custom applications to give you increased load capacity (weight ratings will vary based on application).

- Mounts to fiberglass and rollup tonneau covers, truck canopies, truck bed rails, gear trailers or any flat surface where a through bolt application can be accessed.
- End caps allow installation of T slot hardware without having to remove caps.
- Up to 226 kg load limit on BedTrack Kit 2 with OverHaul HD or OutPost HD truck rack systems.
- Up to 50 kg weight limit per crossbar for LP26 and SkyLine Tower applications, up to 4 crossbars.
- Compatible with Landing Pad 26 and BedTrack Kit 2.
