

RibCage™ JK NEW

CUSTOM ROOFTOP TRACK SYSTEM WITH INTERNAL SUPPORTS FOR JEEP WRANGLER HARDTOPS JK 4-DOOR, 2007-2017

The Yakima RibCage is a high capacity track system for Jeep Wrangler hardtops. The internal support structure ratchets up the off-road carrying capacity to safely and confidently carry roof top tents, recovery gear and just about anything else you can throw up there. RibCage is compatible with traditional Yakima towers and crossbars or LockNLoad platform rack systems.

- Off-road rated up to a 150 kg dynamic load rating and a 374 kg static load rating.
- 48" (121.92 cm) HD Track sections allows for variable crossbar spreads to support 2 or 3 bar or multiple tower LockNLoad platform setups.
- Freedom panels are removable while system is in use and is easily disconnected to fully remove your hardtop.
- The internal supports attach to the roll cage ensuring lateral stability for maximum strength.
- Rooftop Tent compatible.
- The minimal footprint of the internal supports will not intrude on your passenger or cargo space.
- Complete the system with either Yakima TrackTower or Yakima SkyLine Tower when paired with Landing Pad 26; sold separately.
- End caps allow installation of T-slot hardware without having to remove caps.
- Compatible with Jeep Wrangler JK 4dr Hardtop models only.
