

RuggedLine™ HD

HEAVY DUTY PLATFORM-TO-VEHICLE MOUNTING SYSTEM

RuggedLine HD is a premium, heavy-duty mounting system for Yakima LockNLoad Platforms. Custom-designed for each vehicle, the powder-coated high-strength steel structure has been styled and engineered for ultimate reliability to not only tackle your next offroad excursion but also designed to look good while doing it!

COMPETITIVE EDGE

- ▶ Direct attachment to LockNLoad platform or TrimHD Bars for strong low profile rack system
- ▶ Built-in M6 Compatible Accessory Slots
- ▶ Offroad rated and ready for your next adventure

LOAD RATING

- ▶ Tested and certified with a product load rating up to 150 kg* offroad for SUVs & up to 100 kg* for Utes, No offroad reductions.

*Please refer to vehicle manufacturer specifications for maximum roof load capacity of vehicle. The lowest load rating applies.

Maximum Carrying Capacity

Built for serious gear, with the strength to handle it all.

Low Profile Design

Clean, dialed, and sitting tight to the roofline.

Built Yakima Tough

Engineered steel structure and powder coat finish for long lasting strength and durability.

Integrated Fairing

Integrated metal fairing enhances the system's styling while helping to reduce wind noise.
