

# SkyRise SL **NEW**

## LIGHTWEIGHT ROOFTOP TENT

Light, Strong, and Built for Every Journey. The SkyRise SL rooftop tent is engineered with trusted, high-performance materials, making it the ideal choice for road trippers seeking strength and reduced weight. Crafted from durable 210D nylon, it offers a breathable tent body with mesh panels for optimal airflow and stargazing on clear nights. The weather-shedding rainfly, complete with a waterproof PU coating, can be quickly removed for a faster setup and an open-air experience on warm, dry nights. With Yakima's innovative Tent Clamp Design, installation is simple, and the tent remains stable whether you're on the road or in camp.

- Lightweight, easy to install and deploy
- Extra-wide, sculpted ladder steps for barefoot comfort
- New tent clamps designed by the experts in roof racks
- Waterproof 210D ripstop poly body fabric
- Waterproof 210D ripstop poly rainfly
- Load capacity of 272.2 kg
- Product weight: 54 kg
