## Our Roots

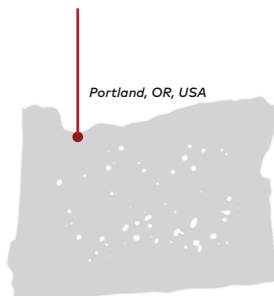

**WE DON'T HAVE WILD SIDES—  
WE HAVE WILD SOULS**

Our story is more of a journey, because we've never been good at sitting still. After all, we don't have wild sides; we have wild souls. For more than four decades, our trusted solutions have transformed the way people travel. We're leaders in our category, packing heritage, safety, design sensibility, and street smarts into every product. Based in the Pacific Northwest, we've got the great outdoors at our doorstep. From valleys and peaks to banks and backlands, the grounds we roam make us feel at home. Together with our network of respected retailers, we give everyone the freedom to wander, the right to be unruly, and the confidence to go more rogue.

**THIS IS WHERE WE  
LIVE AND PLAY**

Portland, OR, USA

## StreamLine™ Collection

### OUR MOST ADVANCED ROOF RACK SYSTEM

From the iconic Gold Bar, SST, and the revolutionary Q-Tower to our industry-leading StreamLine and HD Truck Collection, we've grown and adapted our roof rack options to ensure they're always ready for anything. The perfect fit for everything from skis and bikes to boats and heavy cargo, we're constantly evolving to cover every adventure.

## Expanding the Category

### THE FOUNDATION OF ANY ADVENTURE

As vehicle designs change so does the need for sleeker, lower-profile racks. New for 2022, the ultimate combination of form and function, we introduce the StreamLine FX series. With integrated towers and crossbars, the FX series of flush bars deliver a clean, connected look no matter what vehicle you're racking out. Also, our popular StreamLine system has a new style with a sleek matte finish cover.

NEW

## StreamLine™ FX FLUSH BAR ROOF RACK SYSTEM

Sleek, stylish, and built to compliment your vehicle's shape, the new StreamLine FX series roof rack system works with all Yakima gear mounts and accessories. Its combined tower and crossbars deliver a clean, integrated look no matter the vehicle, with no crossbar overhang to worry about. All the details are refined and dialed, with sleek tower cover styling in a matte finish, tone on tone black logos, and a hidden lock location to keep the security features stealth.

### BaseLine™ FX NAKED ROOFS

You don't need rails to build a bomber roof rack system. For BaseLine FX, the versatile and easy-to-adjust design means it adapts to the shape of the vehicle's roof for a sleek, secure, ready-to-load fit.

### SkyLine™ FX FIXED POINTS OR TRACKS

Don't let the sleek lines of the SkyLine FX fool you—it's built to integrate smoothly, without sacrificing durability. Easy to install and adjust, it's designed to support whatever you're carrying.

### TimberLine™ FX RAISED SIDE RAILS

The TimberLine FX is sleek, sturdy, and ultra-secure. Easy to install, it smoothly integrates with your factory rack's raised side rails to expand carrying capacity, while still offering maximum rooftop versatility.

### SightLine™ FX FLUSH-MOUNTED SIDE RAILS

The SightLine FX integrates with flush-mount factory side rails, offering an easy way to build a solid, secure rack. A sleek, low-profile design ensures that they attach easily, are quiet on the road, and seamlessly align with your vehicle's aerodynamic looks.

## STREAMLINE SYSTEM ROOF RACK TOWERS

**NEW** Matte finish on the tower covers and tone-on-tone black logos
