

OnRamp LX **NEW**

E-BIKE FRIENDLY DESIGN AND EASY TO USE

The OnRamp LX blends sleek design with the strength and versatility that modern ebikes demand. We've created a no-compromise rack, helping ease the challenge of carrying heavier bikes, longer bikes and bikes with fenders. An integrated ramp lets you roll your ride right into place, while adjustable trays custom fit to the bike. Conforming frame clamps allow a wide range of bike styles to be carried with ease.

- Carries two bikes with versatile frame attachments and dual wheel straps.
- Adjustable and telescoping bike trays can accommodate wheelbases up to 137 cm, as well as kid's and cargo bikes.
- StadiumSeating™ tiered and adjustable bike trays are offset to minimise bike to bike interference.
- Integrated ramp for easy, roll-on loading, and stows away neatly on the rack.
- Accommodates up to 29" rims and fits up to 5" wide tires.
- Can carry ebikes, bikes with fenders, mountain, road, gravel, hybrid, women's specific, BMX, and kids bikes with ease.
- 3-Position tilt drops to allow boot access with bikes loaded, and folds flat against the car with bikes unloaded.
- HitchLock with SKS (Same Key System) included to secure rack to vehicle receiver.
- Add your own bike lock to the integrated lock loop for greater bike security.
- Compatible with 2" hitch receivers only.
- Road tested and approved to 36 kg per bike.
- RV Tested and approved to 36kg per bike.
- Off-Road rated to 21.77 kg per bike.
- Compatible with the Yakima BackSwing and StraightShot hitch accessories.
- Built-in bottle opener—cheers!
