HEAVY DUTY OFFROAD-RATED CROSSBAR

TrimHD

TrimHD was designed and tested in Australia, and is the new go-to for heavy loads, quietness, and maximum utility. The engineered lightweight aluminium construction delivers superior support without weighing things down, and improved aerodynamics makes for an even quieter ride.

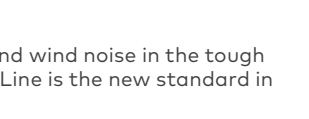

Standard T-Slot Channel

Standard-sized T-slots makes adding your gear and accessories super-fast and easy.

End Caps

Integrated tie-down points - with a low visibility blackened finish.

Load Protector Strip

Load strips with airflow diffuser ridge helps with load carrying and reduces wind noise.

LEG MOUNTS

Yakima SmartFoot

Yakima SmartFoot is a truly modular mounting system that seamlessly attaches to your vehicle like no other.

Paired with these premium fitting kits, your rack system gets the custom treatment.

Yakima SmartFoot fitting kits are designed specifically for the make and model of your vehicle, ensuring a secure fit.
