# CARRY EVERYTHING YOU NEED.

## THE EXO SYSTEM

Take more, take less, take exactly what you need in one simple package. Start with the EXO SwingBase, then add and adapt with multiple attachments that allow you to take all your gear. With over 20 possible combinations, the EXO System is ready for any adventure. Carry everything you need for whatever your weekend has in store.

# EXO SYSTEM

Turn your hitch into a do-anything, go-anywhere multi-tool

### The Foundation

The EXO SwingBase™ is the launchpad for all EXO mounts and accessories. Fits into a 2" hitch receiver.

### Double Up the Capacity

Double the space with a second tier of accessible storage with the EXO TopShelf™.

### How It All Comes Together

The EXO SwingBase™ and EXO TopShelf feature a proprietary cleat system called the EXO Cleat. It allows the gear mounts to be easily interchanged without the need for tools. This is all done by two locking SpeedKnobs on each side of the articulating arms.

### Full Functionality

Once the EXO System is configured to the desired set-up, the entire system has the ability to swing away from the vehicle for trunk access. An included kickstand can be deployed if the user is keeping the system swung open to ensure a level work surface.

## EXO SwingBase™ EXO HITCH SYSTEM BASE

The EXO SwingBase takes your standard hitch and turns it into the ultimate foundation for hauling and organizing every piece of gear in your kit. It's the base to which all other EXO components attach. Simply leave it on your vehicle and change EXO components as your adventures adapt.

- Swings away from car with gear loaded to provide easy access to rear of vehicle
- Accessories install in seconds using the tool-free EXO Cleat system and locking SpeedKnobs
- Accessory arms fold in when not in use
- Fits 2" hitch receivers only
- Included HitchLock locks EXO SwingBase to vehicle
- Includes 2 extra SKS locks cores for use with EXO accessories

#8002715

Accessory arms fold in when not in use.

Fits 2" hitch receivers only.

Swings away from car with gear loaded to provide easy access to rear of vehicle.

Accessories install in seconds using the tool-Free EXO Cleat system and locking SpeedKnobs.

## EXO TopShelf™ SECOND LEVEL EXO SYSTEM BASE

Double your hitch capacity with a second tier of super accessible storage with the EXO TopShelf. Whether you're cycling and camping, skiing and hiking or simply needing to double your load, the EXO TopShelf can mix-and-match EXO accessories to make any adventure easier.

- Attaches to and requires EXO SwingBase to create a second level on your EXO Hitch system
- Rotates 180 degrees relative to EXO SwingBase for easy access to gear on lower level or to set-up base camp mode
- Accessories install in seconds using the tool-Free EXO Cleat system with locking SpeedKnobs
- Included HitchLock locks EXO TopShelf to EXO SwingBase
- Includes 2 extra SKS locks cores for use with EXO accessories

#8002716

Attaches to and requires EXO SwingBase to create a second level on your EXO Hitch system.

Includes a jack stand for base camp mode set-up.

Rotates 180 Degrees relative to EXO SwingBase for easy access to gear on lower level.

Accessories install in seconds using the tool-Free EXO Cleat system with locking SpeedKnobs.

## EXO LitKit LICENSE PLATE AND LIGHT KIT

Hardcore adventurers like keeping things safe on the road. EXO LitKit ensures you are street-legal when using the Yakima EXO System. Simply attach to the EXO SwingBase arms to keep your license plate and taillights visible, no matter your configuration.

#8002720

# EXO GearLocker™

## EXO SYSTEM CARGO MOUNT

The EXO GearLocker gives you the functionality of a legendary Yakima roof-top cargo box, but with hitch-mounted ease-of-access. Easy on-and-off makes it perfect for hauling gear from your car to the campsite, the beach or anywhere else you need your gear on-hand.

- Connects to the EXO SwingBase or EXO TopShelf in seconds using the EXO cleat system
- 10 Cubic Feet of Storage Space
- Wide-angle opening makes placing or finding your gear easy
- 100lb gear weight limit when mounted on EXO SwingBase
- 80lb gear weight limit when mounted on EXO TopShelf
- Tool-free, locking SpeedKnobs attach and lock EXO GearLocker to EXO SwingBase or EXO TopShelf
- Made in the USA

#8002718

Connects to the EXO SwingBase or EXO TopShelf.

Tool-free, locking SpeedKnobs attach and lock EXO GearLocker.

Wide-angle opening makes placing or finding your gear easy.

SKS Lock included for added gear security.

# EXO GearTotes

## COLLAPSIBLE TOTE

Make the most of your EXO GearLocker with the EXO GearTotes, collapsible, dividable totes that make it easy to stay organized from house to vehicle to destination and back again.

#8002719

# EXO GearWarrior™

## EXO SYSTEM BASKET MOUNT

When you need to transport coolers, firewood or bulky gear from your home to your vehicle to your destination, the EXO GearWarrior is where it's at. Simply attach it to your EXO SwingBase or EXO TopShelf, load up and get out. Add the available EXO WarriorWheels to turn the EXO GearWarrior into a handy wagon with wheels and a handle that can be attached while the EXO GearWarrior is still on your hitch.

- Connects to the EXO SwingBase or EXO TopShelf
- Weather-resistant, heavy-duty steel construction
- Tool-free, locking SpeedKnobs attach and lock EXO GearWarrior to EXO SwingBase or EXO TopShelf
- 250lb gear weight limit when mounted on EXO SwingBase w/out EXO TopShelf
- 110lb gear weight limit when mounted on EXO SwingBase w/EXO TopShelf installed
- 80lb gear weight limit when mounted on EXO TopShelf

#8002724

Connects to the EXO SwingBase or EXO TopShelf in seconds using the EXO cleat system.

250lb gear weight limit when mounted on EXO SwingBase w/out EXO TopShelf.

Tool-free, locking SpeedKnobs attach and lock EXO GearWarrior.

Weather-resistant, heavy-duty steel construction.

# EXO WarriorWheels

## WARRIOR BASKET CART KIT

We made hauling from home to vehicle to anywhere a snap with the EXO WarriorWheels — wheels and a handle that connect to your EXO GearWarrior, even while it's still on your hitch.

#8002712

## EXO DoubleUp™

### EXO SYSTEM BIKE MOUNT

The two-bike EXO DoubleUp attaches directly to the EXO SwingBase or to the second tier EXO TopShelf allowing room for an EXO GearLocker or EXO GearWarrior below. Either way, it's super easy access that accommodates anything you're riding — fat tires to road bikes and everything in between.

#8002722

Connects to the EXO SwingBase or EXO TopShelf in seconds using the EXO cleat system.

Fits most bikes, including fat-tire, mountain, road, hybrid, women's specific, BMX, kids' bikes.

Tool-free, locking SpeedKnobs attach and lock EXO DoubleUp.

StrongArm hook secures bike at wheels, protecting painted surfaces and carbon frames.

## EXO SnowBank™

### EXO SYSTEM SNOW MOUNT

Getting your skis and boards to the slopes has never been easier with the new EXO SnowBank. Pair it with an EXO GearLocker and you have customizable storage for everything you need. Carry up to five pairs of skis or four snowboards on the back of your vehicle — enough for your entire crew.

#8002723

Connects to the EXO SwingBase or EXO TopShelf in seconds using the EXO cleat system.

DoubleJoint hinge expands for easy use with thick skis and boards.

Tool-free, locking SpeedKnobs attach and lock EXO SnowBank.

Large button makes it easy to open with gloves or mittens on.

## EXO BackDeck™

### EXO SYSTEM TABLE TOP MOUNT

Whether you're tinkering on your gear, prepping a meal for your crew, or mixing drinks for a night of fun, the EXO BackDeck is the perfect solution, turning your EXO system from gear hauler to working surface to bar top in seconds. When you're done, simply stow it and get back on the road.

#8002721

Connects to the EXO SwingBase or EXO TopShelf in seconds using the EXO cleat system.

50" x 17" UV protected bamboo work surface.

Included bag protects the tabletop when not in use and makes for easy transport.

Tool-free, locking SpeedKnobs attach and lock EXO BackDeck.

## RoadShower™

### PORTABLE PRESSURIZED WATER STORAGE

Combined with EXO RoadShower Kit, the RoadShower is your trusty sidekick for the convenience of pressurized water in the middle of nowhere.

4G #8004109  
7G #8004110  
EXO RoadShower Kit #8004112

Connects to the EXO SwingBase or EXO TopShelf in seconds using the EXO cleat system.

Tool-free, locking SpeedKnobs attach and lock RoadShower.

## EXO RoadShower Kit EXO ADAPTER KIT

The EXO RoadShower Kit lets you attach the RoadShower 4G and 7G to your EXO system giving you more mounting options for your RoadShower.

#8004112

## EXO OpenRange™ OUTDOOR COOKING STORAGE SYSTEM

The EXO OpenRange unit design allows for organizing and transporting cooking gear. It easily opens into a fully functional work station, making it easy to prep, cook, and serve from the same spot. EXO OpenRange seamlessly attaches to the EXO System for easy transport, and can be deployed into kitchen mode right from your vehicle, or can be relocated to a table or Leg Kit for stand-alone use.

- Connects to the EXO SwingBase or EXO TopShelf in seconds using the included EXO cleat system
- Durable rotomolded enclosure with a rubber door seal keeps your gear fully protected from weather, dust, and critters
- Fold down front door allows easy access to your gear and can be used as a prep surface
- Internal shelf and integrated utensil drawer help to organize your cooking and camp gear
- 85 liters (90 quarts) of internal storage space, and rated to carry up to 50 lb. of gear
- Includes SKS locking latches to secure your gear

#8007447

Seamlessly attaches to the EXO System for smooth transport and deployment.

Opens into a fully functional work station with an integrated utensil drawer and internal shelf.

Backboard Organizer keeps items organized and workspace clear of clutter.

Keep gear fully protected with SKS locking latches, and ruggedized roto molded enclosure.

## OpenRange™ Wood Side Table WOOD SIDE TABLE

Bamboo wood side table expands your cook zone with valuable work surface. 13" x 27" bamboo table is UV protected with a premium finish. Fits inside EXO OpenRange for easy transporting.

#8007451

Includes plastic cutting board and collapsible wash basin that nests into the table.

Attaches to EXO OpenRange for expanded cooking work space.

## OpenRange™ Metal Side Table METAL SIDE TABLE

Metal side table for cooking with stoves of all sizes. 16" x 31" powder-coated steel surface is heat resistant and perfect for stove use.

#8007457

Metal rod supports propane camp stove tanks or doubles as a towel rack.

Attaches to EXO OpenRange for expanded cooking space .

## OpenRange™ Leg Kit

### FREE STANDING LEG KIT

This sturdy leg kit attaches to the bottom of EXO OpenRange storage box, so you can set up to cook anywhere you want. Telescoping legs provide height adjustment from 20" - 33" with micro-adjustment for unlevel ground.

#8007449

Telescoping legs provide height adjustment from 20" to 33".

Provides a stable base for EXO OpenRange Storage Box.

◀ LegKit not included

## EXO OpenRange™ Deluxe

### EXO OPENRANGE BUNDLE

The EXO OpenRange Deluxe design allows for easy organizing and transporting of cooking gear. It opens into a fully functional work station, making it easy to prep, cook, and serve from the same spot. EXO OpenRange Deluxe seamlessly attaches to the EXO System for easy transport, and can be deployed into kitchen mode right from your vehicle, or can be relocated to a table or Leg Kit for stand-alone use.

## HOW TO BUILD YOUR ROOF RACK

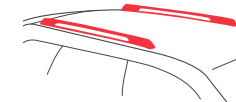

### YOUR VEHICLE DETERMINES THE TOWER

The tower is what attaches the roof rack to the vehicle. Because not all roofs are the same, we offer 4 different towers to accommodate just about every roof. Some towers require a 'clip' system to secure it. **ROOF TYPES:**

#### Naked

A bare roof with no designated attachment points.

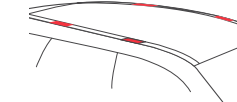

#### Raised Rail

Two raised rails that run parallel to the doors. There is enough of a gap that you could slide your hand underneath.

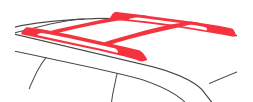

#### Flush Rail

Two flush rails that run parallel to the doors. You cannot slide your hand underneath.

#### Fixed Point

Four hidden attachment points that are usually disguised by a cover or plastic door. Can be found on some flush rails, or raised rail roofs.

#### Factory

Crossbars and side rails that came pre-installed on the vehicle from the dealership.

### YOUR STYLE DETERMINES THE CROSSBAR

We all like things a little bit differently than the other. So there are 4 crossbar options to choose from varying from material to use-case, color and length. They are JetStream Black, JetStream Silver, HD Bar, CoreBar and RoundBar.

### YOU LIFESTYLE DETERMINES THE MOUNTS

After your roof rack is installed it's time to add accessories and gear mounts. Such as, SKS locks or a wind fairing to reduce wind noise.

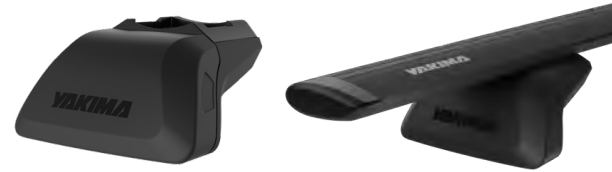

# ROOF RACK TOWERS

CONNECT YOUR ROOF RACK TO YOUR VEHICLE

## StreamLine™ Towers

### BaseLine™ Towers

No rails? No problem. The versatile design adjusts to a variety of vehicle roofs for a sleek and secure fit.

- For use on vehicles with naked roofs
- Risk-free installation with included torque tool
- Bar angle adjusts for aerodynamic fit
- Easily locks to vehicle with our SKS system (sold separately)
- To be used with vehicle-specific BaseClips

4 PACK #8000162  
 2 PACK #8000183  
 Add 4 SKS Locks #8007204

BaseClips – Vehicle-Specific

### SightLine™ Towers

Strong and versatile, SightLine Towers attach easily and have a sleek design that complements your vehicle's aerodynamic attitude.

- For use on vehicle roofs with flush side rails
- Risk-free installation with included torque tool
- Bar angle adjusts for aerodynamic fit
- Easily locks to vehicle with our SKS system (sold separately)
- To be used with vehicle-specific SightClips

4 PACK #8001635  
 Add 4 SKS Locks #8007204

SightClips – Vehicle-Specific

### SkyLine™ Towers

Create a mega-versatile and easy-to-use system that handles your unique personality and extensive range of gear.

- For use on vehicle roofs with fixed points or tracks
- Risk-free installation with included torque tool
- Bar angle adjusts for aerodynamic fit
- Easily locks to vehicle with our SKS system (sold separately)
- To be used with vehicle-specific Landing Pads

4 PACK #8000163  
 2 PACK #8000184

Add 4 SKS Locks #8007204

Landing Pad – Vehicle-Specific

### TimberLine™ Towers

TimberLine Towers expand your carrying capacity and deliver maximum rooftop versatility. Secure, quiet, and simple to install.

- For use on vehicle roofs with raised side rails
- Risk-free installation with included torque tool
- Easily locks to vehicle with our SKS system (sold separately)

4 PACK #8000164  
 2 PACK #8000185

Add 4 SKS Locks #8007204

# ROOF RACK CROSSBARS

THE MOUNTING POINT FOR YOUR GEAR

RAISED RAILS FOR BRACING AND TYING DOWN CARGO  
Full-length T-slot channels for T-slot accessories.

Visit [yakima.com](http://yakima.com) to build your custom LockNLoad™ Platform with perimeter rails.

# Attaching the LockNLoad

There are 2 ways to attach the LockNLoad platform to your vehicle. One is to utilize your existing roof rack and attach it directly to the crossbars or, build LockNLoad as a roof rack and attach directly to the towers.

## Option ① Attach Directly to Existing Roof Rack or Truck Rack Crossbars

The LockNLoad Crossbar Clamps allow you to attach the platform to your existing roof rack or truck rack. It is compatible with all Yakima crossbars as well as many other brands.

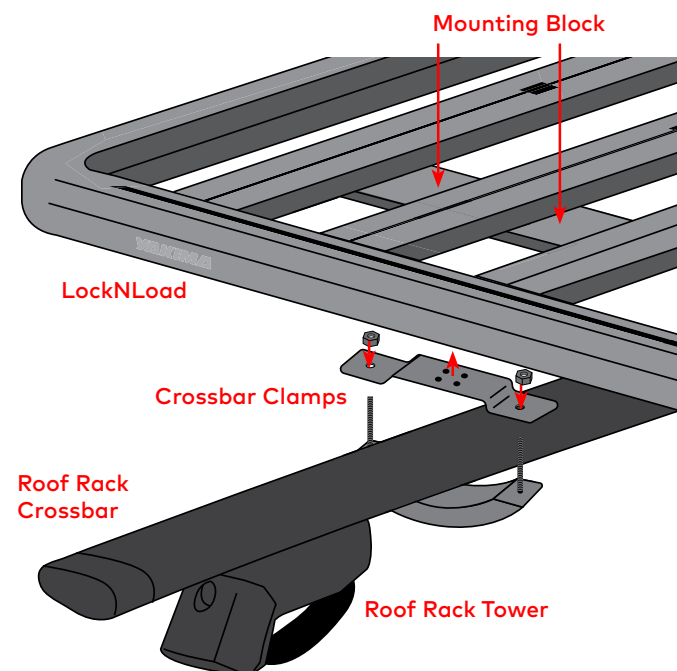

### HOW?

The clamps attach to the Platform mounting blocks then are simply bolted to the lower half of the clamp around the crossbar.

### WHAT TO BUY:

- **1 LockNLoad Platform**  
Check what size that fits your vehicle:  
[yakima.com/locknload-platform](http://yakima.com/locknload-platform)
- **Sizes - K&B - 2 sets of LockNLoad Crossbar Clamps\***
- **Sizes - J, E, N, & H - 3 sets of LockNLoad Crossbar Clamps\***

\* For increased weight rating see Weight Rating and Application Chart for details.

## Option ② Attach Directly to Roof Rack Towers

The LockNLoad SL adapter allows you to connect the platform to a Yakima StreamLine Tower. The platform takes the place of the roof rack crossbars. The SL Adapter is only compatible with TimberLine and SkyLine towers.

### HOW?

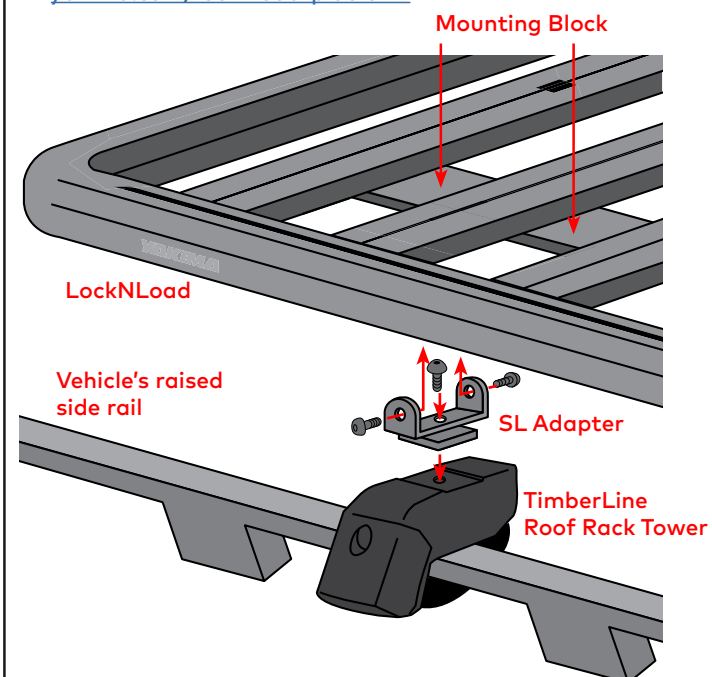

The Adapter sits in the tower and is bolted together, then the tower + adapter are bolted to the platform.

### WHAT TO BUY:

- **1 LockNLoad Platform**  
Check what size fits your vehicle:  
[yakima.com/locknload-platform](http://yakima.com/locknload-platform)
- **Sizes - K&B - 2 sets of LockNLoad SL Adapter\***
- **Sizes - J, E, N, & H - 3 sets of LockNLoad SL Adapter\***

\* For increased weight rating see Weight Rating and Application Chart for details.

- **SkyLine or TimberLine Towers** - Find your vehicle fit at [yakima.com/locknload-platform](http://yakima.com/locknload-platform)

These are not instructions for installation.

BIKE

## Hitch Bike Rack Styles

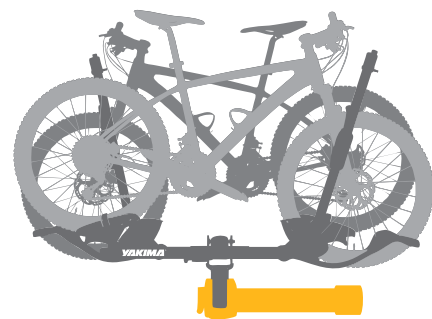

### Tray-Style

**LOAD BIKES QUICKLY AND EASILY**  
Fuel efficient & easy to load bikes at rear of vehicle.  
Most flexibility to arrange bikes for safe transport.  
Tilts with bikes loaded for easy hatch access.

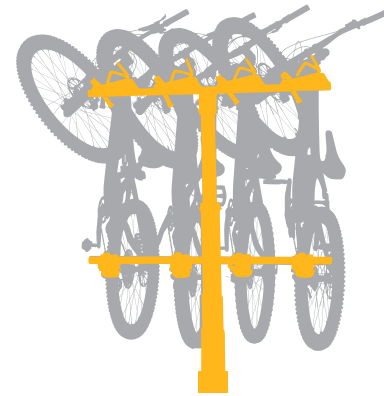

### Tilt-Style

**TRIED AND TRUE, MINIMALIST**  
Secures bikes at the top tube.  
Tilts forward with bikes unloaded for hatch access.

### Swing Adapter

**TURN YOUR 2" TILT, TRAY, OR VERTICAL RACK INTO A SWING-STYLE RACK.**  
Adapter Only. Hitch product sold separately.  
Find compatible hitch products at [yakima.com/backswing](http://yakima.com/backswing).

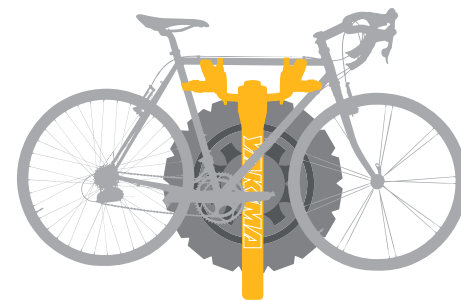

### Vertical-Style

**SHUTTLE YOUR BUDDIES OR THE FAM**  
Saves space by organizing bikes vertically.  
Tilts away from vehicle for hatch access.

### Swing-Style

**EASY ACCESS TO YOUR TRUNK**  
Secures bikes at the top tube.  
Swings away with bikes loaded for full hatch access.

### Spare Tire

**JEEP LOVERS LOOK HERE**  
Spare tire mount and Hitch Extender option available.  
Hitch product sold separately(Hitch Extender).

## StageTwo™

### PREMIUM TRAY HITCH BIKE RACK

The StageTwo is built to carry your valuable steeds anywhere you need to go, securely and in style. The StrongArm hook quickly secures your bike while the stadium seating tiered architecture increases ground clearance on rutted trails or steep driveways. An offset tray design further minimizes bike to bike interference and maximizes functionality.

- Tiered and adjustable bike trays minimize bike to bike interference and maximize ground clearance
- StrongArm™ hook secures bike at wheels, protecting painted surfaces and carbon frames
- Convenient remote tilt lever for easy rear of car access
- Tool-free locking SpeedKnob for secure installation and removal
- Offset Trays for extra bike to bike clearance
- E-bike compatible, up to 60lbs per bike

2 INCH ANTHRACITE #8002725  
2 INCH VAPOR #8002740  
1.25 INCH ANTHRACITE #8002726

- Fits 20" to 29" wheel sizes,
- Tires up to 3.25" wide, and up to 5" wide with StageTwo Fat Bike Kit

Tiered and adjustable bike trays minimize bike to bike interference and maximize ground clearance.

Tilts down with bikes loaded for trunk access.

Convenient remote tilt lever for easy rear of car access.

Tool-free locking SpeedKnob for secure and simple installation and removal.

## STAGETWO +2

### ADD-ON PREMIUM TRAY HITCH BIKE RACK

Adding on the StageTwo +2 lets you double your capacity to four bikes, each carried securely and in style.

For use on StageTwo 2" only.

ANTHRACITE #8002727  
VAPOR #8002741

## STAGETWO ACCESSORIES

### SafetyMate™ STAGETWO LIGHTING AND PLATE KIT

SafetyMate ensures you are street-legal when using the StageTwo and StageTwo +2. Keep the clean lines and style of the StageTwo family going with the clean LED Lightbar and internal electrical routing.

#8002738

### RampUp™ STAGETWO RAMP KIT

No awkward loading here. Loading heavy bikes on the StageTwo family of racks is no problem with the RampUp, just lock the ramp in place and roll your bike up onto the tray.

#8002737

### Fat Bike Kit STAGETWO FAT BIKE KIT

Fat bikes fit fine with long wheel straps to accommodate fat bikes on StageTwo and StageTwo +2.

#8002735

## HoldUp™ TRAY HITCH BIKE RACK

A true Yakima classic. Its beefed-up arm pivot makes it stronger than ever and the increased side-to-side adjustability reduces the chance for bike-to-bike interference. It's a road trip companion for life. It even tilts down with bikes loaded for easy rear-of-vehicle access.

2 INCH #8002443  
1.25 INCH #8002445

- Fits 20" to 29" wheel sizes,
- Tires up to 3" wide, and bikes up to 60 lbs.

Integrated lock secures bike to the rack.

Adjustable trays.

## HOLDUP +2 HOLDUP HITCH BIKE RACK EXTENSION

Carry two additional bikes on the HoldUp. For use on HoldUp 2" only.

#8002446

## HoldUp™ EVO PREMIUM TRAY HITCH BIKE RACK

Rugged, proven, and super-easy to use, this next-gen HoldUp EVO includes an easy-access tilt mechanism and KickStart™ foot pedal, our SpeedKnob™ for tool-free installation, and Fat Bike compatibility. Expansive side-to-side adjustment delivers superior clearance, and the StrongArm hook secures the bikes at their wheels.

2 INCH #8002479  
1.25 INCH #8002480

- Fits 20" to 29" wheel sizes,
- Tires up to 3" wide, and bikes up to 60 lbs.

Fits road, mountain, fat tire, and kids bikes.

Locking SpeedKnob™ provides easy, tool-free attachment.

## HOLDUP EVO +2 HOLDUP EVO HITCH BIKE RACK EXTENSION

Carry two additional bikes on the HoldUp EVO. For use on HoldUp EVO 2" only. #8002482

## SingleSpeed™ SINGLE BIKE TRAY HITCH RACK

Fast, light, and great for solo travel, the SingleSpeed holds virtually any kind of bike tight and is super-easy to install and remove—great for spur-of-the-moment rides.

#8002481

Integrated lock secures bike to the rack.

Locking SpeedKnob™ provides easy, tool-free attachment.

- StrongArm design secures bike at wheels, protecting paint and carbon frames
- Accommodates disc brakes, through axles, Boost hubs, and full suspension
- Weighs in at just 20 lbs.

- Fits 20" to 29" wheel sizes,
- Tires up to 4.8" wide, and bikes up to 40 lbs.

CURRENT PRICING AVAILABLE AT YAKIMA.COM

## OnRamp™ E-BIKE TRAY HITCH RACK

Say goodbye to awkward loading options, and hello to your e-bike's new best friend. The OnRamp blends simple, efficient design with secure performance, to create a no-compromise rack to ease the challenge of carrying heavier bikes.

2 INCH #8002706  
1.25 INCH #8002707

- Fits 20" to 29" wheel sizes.
- Tires up to 29x3.25" and up to 27.5x 4.5" wide tires with the FatStrap Kit (sold separately)

Engineered to carry 2 bikes up to 66-lbs each.

Integrated ramp for easy, roll-on loading, and stows away neatly.

Articulating cradles adapt to the shape of the bike frame and hold it securely in place.

The removable ramp stashes away at the back of the rack.

## HangTight™ VERTICAL HANGING BIKE RACK

All your bikes, all at once. The HangTight is designed for versatility, built to handle adventures of all sorts, and won't blink at anything from kids to fat bikes to road to mountain bikes and everything in between. With fully padded cradles that support each bike by the handlebars, it serves up a shuttle-ready blend of stability and ease of use. The HangTight will get your bikes to the ride and back home safely no matter if your crew is a mix of all-mountain shredders or simply a family headed out for two-wheeled exploration.

4 BIKE #8002742 | Compatible with BackSwing  
6 BIKE #8002743

Securely supports most road, mountain, kids, and cruiser bikes by the handlebar.

Tilts forward for easy access to the trunk.

Fully padded cradles protect your handlebars, including carbon bars.

Foot-operated tilt mechanism makes it easy to access the rear of the vehicle.

Compatible with BackSwing, swing away hitch adapter

Compatible with BackSwing, swing away hitch adapter

# HangOver™

## VERTICAL HANGING MOUNTAIN BIKE RACK

Perfect for tour operators, group rides, and big families. Constructed of heavy-duty steel, our first-ever vertical bike rack safely hauls up to six mountain bikes to the trailhead. We designed and tested it in the lab and on the road to meet our demanding Yakima standards. The easy-to-operate tilt mechanism with two adjustable mast angles keeps your bikes from bumping into your car, truck, or SUV and makes accessing the tailgate a breeze. Available in 4-bike or 6-bike options, the HangOver's vertical orientation carries more bikes in less space. Get ready to session!

4 BIKE #8002484 | Compatible with BackSwing  
6 BIKE #8002485

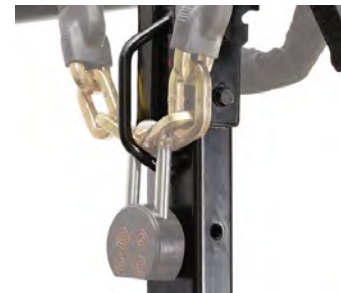

Foot-operated tilt mechanism changes rack position for easy loading and unloading.

Securely supports bikes by the fork crown; fits suspension-fork bikes only.

Rotating wheel cup accommodates bikes with various wheelbases.

Add your own bike lock to the integrated lock loop for greater bike security.

## FullTilt™ PREMIUM TILT-AWAY HITCH RACK

Fully assembled out of the box makes install a snap with the AutoPin and locking SpeedKnob. Easy-to-use ZipStrips secure bikes and are fully removable for easy loading and unloading. Fully padded arms provide superior bike protection.

#8002463

Arms fold flat when not in use.

Easy hitch install with tool-free locking SpeedKnob™.

Tilts down for easy access to the trunk.

Adjustable ZipStrip cradles allow for the perfect fit between bikes.

## RidgeBack™ TILT-AWAY HITCH BIKE RACK

UpperHand control lever tilts the rack away from the vehicle for easy access, and folds flat for easy storage. ZipStrips secure your bike and are fully removable for easy loading and unloading.

2-BIKE #8002457

4-BIKE #8002458

5-BIKE #8002459

ZipStrip cradles secure bikes in place and prevent swinging.

Easy hitch install with tool-free locking SpeedKnob™.

Tilts down for easy access to the trunk.

Arms fold flat when not in use.

## FullSwing™ PREMIUM SWING-AWAY HITCH BIKE RACK

Swings easily away from the car with bikes loaded to provide access to the rear of the vehicle. Fully padded arms and adjustable cradles provide superior bike protection. Easy-to-use ZipStrips secure your bike and are fully removable for easy loading and unloading.

#8002465

ZipStrip cradles secure bikes in place and prevent swinging.

Easy hitch install with tool-free locking SpeedKnob™.

Locks bikes to rack with integrated bike lock.

Tilting lever allows the arms to fold flat when not in use.

## SpareRide™ SPARE TIRE MOUNTED BIKE RACK

Easily attaches to your rear-mounted spare tire and turns it into a bike rack. With a built-in locking feature that keeps the rack and your spare tire secure to the vehicle, the SpareRide is durable, stable, and secure for up to 2 bikes.

#8002599

Rubber tread protects your spare tire.

Easy install with tool-free locking SpeedKnob™.

Arms fold flat when not in use.

ZipStrip cradles secure bikes in place and prevents swinging.

## LongHaul™ PREMIUM RV-APPROVED HITCH BIKE RACK

Built for rugged long-distance RV travel, the LongHaul securely carries four bikes, is easy to use, and is a breeze to install and remove. Packed with features, the RoadTrip goes above and beyond. The arms fold flat when not in use, the built-in lock secures bikes, and the padded cradles with ZipStrips hold bikes in place. It even features a handy bottle opener.

#8002476

Locks bikes to rack with integrated bike lock.

Features a "bring-your-own-lock" threading point.

Arms fold flat when not in use.

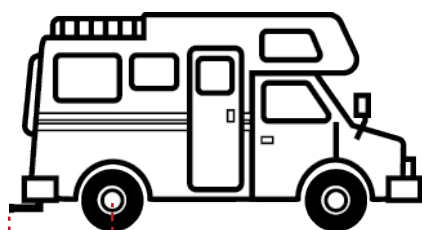

ZipStrip cradles secure bikes in place and prevent swinging.

# HITCH RACK FIT TIPS

ENSURING THE PERFECT FIT ON A HITCH RECEIVER

## FIRST Determine Hitch Class and Size

Our hitch racks are designed and tested to work in Class I, II, III and IV receivers; we DO NOT fit Class V receivers.

To figure out which class your receiver falls into check the sticker on the side of the receiver. If there is no sticker present and the hitch came pre-installed, check the vehicle owner's manual under "Towing". Otherwise you can check with the dealership or manufacturer.

You will also need to determine what size hitch receiver you have. It will either be 2" wide or 1.25" wide. Measure the opening of the receiver.

## NEXT Use the Chart on next page to Match Products

Use the chart on the next page to determine what products are compatible with your hitch Class receiver.

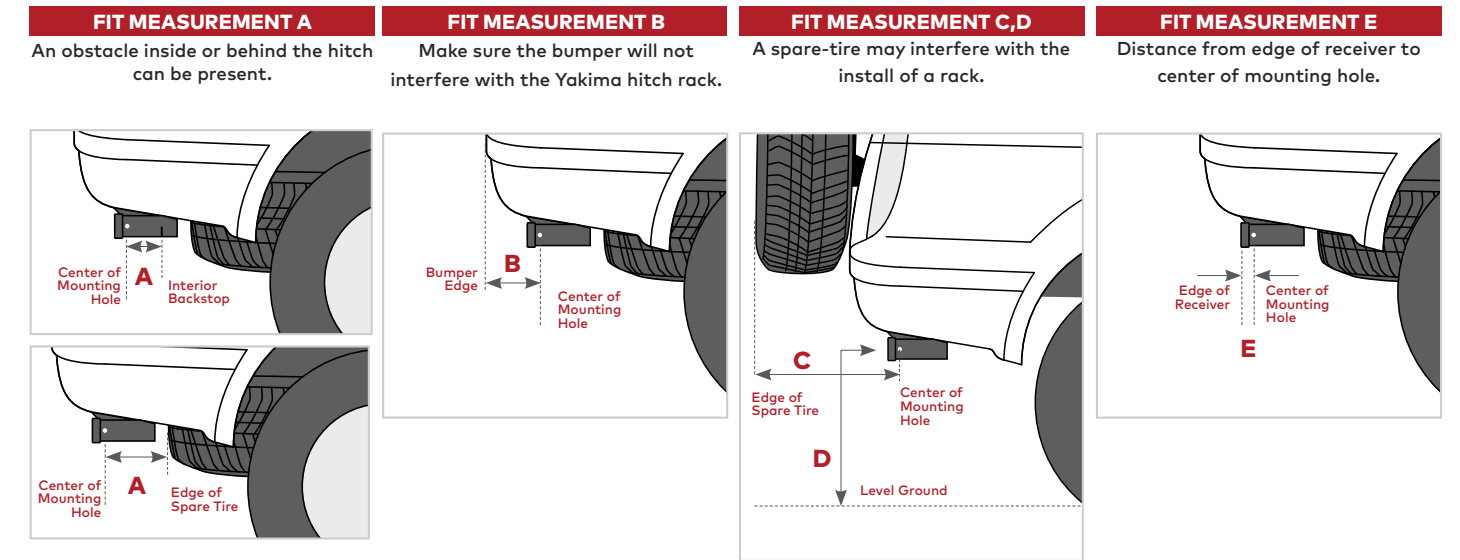

## LAST Follow Fit Measurements

Because hitch receivers can be installed on the vehicle in many different ways it is important to check the provided fit measurements for compatibility. Find the products that fit your Class receiver and locate the A,B,C,D,E measurements that associate with the product.

Hitch Class	Size	Tongue weight Capacity	Tow weight Capacity
Class I	1 1/4"	Up to 200lbs	Up to 2000lbs
Class II	Usually 1 1/4"	Up to 350lbs	Up to 3500lbs
Class III	Usually 2"	Up to 800lbs	Up to 8000lbs
Class IV	2" or 2 1/2"	Up to 1000lbs	Up to 10000lbs

# HITCH RACK FIT MEASUREMENTS

Using the table chart, compare measurements to see which hitch racks will work with a specific vehicle. Measurement must be equal to or greater than the product measurement listed.

HITCH RACK	FIT MEASUREMENT					CLASS COMPATIBILITY

★ Measurement D is a recommended minimum on this product. Using Yakima hitch mounted bike racks on vehicles with a pinhole to ground distance less than the minimum recommended increases the risk of the bikes or rack striking the ground while in use.

◆ Due to variations in Class I hitch receivers, some Class I receivers may not be able to accept this product. Please refer to Fit measurement "A" to see if this product will work on your class I.

**FullBack™**  
PREMIUM TRUNK BIKE RACK

This fully loaded, sleekly styled trunk rack securely holds your bikes. It's simple to use, easy to install, folds flat for storage, and looks sweet on your car. SuperCush cradles with ZipStrips™ secure the bikes and allow for easy install.

2-BIKE #8002634  
3-BIKE #8002633

## HighSpeed™ PREMIUM ROOFTOP FORK BIKE MOUNT

Streamlined and strong, our most advanced fork mount securely handles all types of bikes and axles. Its integrated TorqueRight™ knob tightens with no worries, and the forward shift and low profile offer excellent hatch clearance. Integrated locking features require lock cores sold separately. T-slot compatible.

#8002115

Add 4 SKS Locks #8007204

Add SmarT-slot 1 for T-slot mounting #8002122

Easily clamps onto thru axle safely and securely.

Built in TailWhip™ retractable locking cable (add SKS Locks).

Integrated TorqueRight™ knob tightens axle in place.

Securely carries bikes with up to 5" wide tires\*.

Fits QR 9mm and thru-axles 12 mm, 15x100/110, 20 mm

\*FatBike QR Locking Skewer required for fat bikes with dropout forks

## ForkLift™ ROOFTOP FORK BIKE MOUNT

The ForkLift secures your bike without touching any of the painted surfaces. Quick to load and easy to install, it's ready to go right out of the box—it's a great choice for spur-of-the-moment rides. Just pop it on, load your bike, and go.

#8002098

Add 2 SKS Locks #8007202

Thru Axle Adapters

12mm X 100 #8002116

15mm X 100 #8002099

15mm X 110 #8002113

20mm X 110 #8002096

Fits 20" to 29" wheels and tires up to 3"

## HighRoad™ PREMIUM ROOFTOP UPRIGHT BIKE MOUNT

Our most noble upright bike mount, the HighRoad is aerodynamic, secure, easy to load, and fits almost any bike without touching the frame. The adjustment-free hoop with its torque-limiting tensioner requires no wheel removal. Integrated locking features require lock cores sold separately. (T-slot compatible)

#8002114

Add 2 SKS Locks #8007202

Add SmarT-slot 1 for T-slot mounting #8002122

Built in TailWhip™ retractable locking cable (Add SKS Locks).

Integrated TorqueRight™ knob tightens wheel hoop.

Streamlined bar-hugging design and excellent rear-hatch clearance.

Folds to a stowed, flat position when not in use.

Hoop accommodates 26" to 29" wheel sizes and 23mm to 4" tire widths.

## FrontLoader™ ROOFTOP UPRIGHT BIKE MOUNT

Super-easy to load, totally secure, and a proven customer favorite, the FrontLoader carries your complete bike—no wheel removal needed. The universal mounting system fits just about any crossbar out there, and install is easy—no tools or assembly needed.

#8002103

Add 2 SKS Locks #8007202

Easy-to-use spinning knob tightens the wheel down.

Quick-adjust wheel hoop secures a variety of tire sizes.

Fits 20" to 29" wheels and tires up to 3"

Folding wheel hoop minimizes drag and wind noise.

Easy-to-adjust sliding wheel tray fits a wide range of bike lengths.

# TRUCK

**YAKIMA**  
TAKE IT EASY.

## BORN WHERE THE ASPHALT ENDS

### THE NEW YAKIMA OFF-ROAD RATING

Yakima Off-Road Rated is a breakthrough testing standard that's making its debut in our HD Truck Collection. Redefining what it means to handle rough terrain on the regular, this new standard surpasses the international ISO requirements in many areas. We vigorously test for unmatched endurance using controlled worst-case-scenario lab simulations as well as real-world driving. Every outing puts qualified equipment through the off-road wringer with evasive maneuvers, swerving, speed bumps, and emergency stops. Needless to say, all Off-Road Rated products are specifically designed to take bonafide beatings off the beaten path—where the underbrush grows and the wild ones roam.

## HOW TO BUILD YOUR TRUCK RACK

1

### SELECT THE RACK THAT IS RIGHT FOR YOUR LIFESTYLE

OverHaul™ HD - Adjustable height, 19-30", heavy-duty, over the bed rack  
OutPost™ HD - Fixed height at 13", heavy-duty, over the bed rack  
BedRock™ HD - Fixed height flush with bed rails, heavy-duty, adjustable  
*(See other available options on pg. 8)*

2

### CHOOSE YOUR CROSSBAR LENGTH

HD Bars are sold separately for the perfect fit on your truck. They come in 4 lengths, SM (55"), MD (60"), LG (68"), XL (78"). Visit [Yakima.com](http://Yakima.com) and "Add Your Vehicle" to rely on us for the length. Or, choose which will work best for you.

3

### INSTALL AND GO!

It's really that easy. Once you've installed the rack that's right for you, add the gear mounts for all of your adventures.

## OverHaul™ HD

### ADJUSTABLE-HEIGHT HEAVY-DUTY TRUCK BED RACK

For weekend adventures and hardworking weekdays, the Overhaul HD adjustable truck rack offers best-in-class payload and unmatched versatility. Leveraging our new HD Bars for a 500-lb. on-road carrying capacity, and paired with Yakima's 300-lb. Off-Road Rating, the OverHaul HD truck rack is the ideal foundation for heavy loads. The crossbar height can be adjusted to suit your needs: way up, for long loads to go over the cab—or down low, to get the rack out of the wind. The uprights are easy to take on and off in minutes, so the truck's only racked-up when needed. The OverHaul HD truck rack uses any of our HD Crossbar sizes, and accepts our SideBars™ for attaching off-road and utility accessories. Multiple tie-down points and the ability to fit most truck beds—including select tonneau covers—make this an ultra-functional rack that works and plays as hard as you do.

• **Yakima HD Bar crossbar sold separately for a custom fit**

- Designed and tested for all common truck beds using our BedGrip™ clamp design, including tracked beds and select tonneau covers
- Built to last with engineered aluminum construction and a durable powder-coat finish
- Compatible with all Yakima mounts to carry kayaks, surfboards, bikes, rooftop tents, lumber, and more
- Integrated SKS (Same Key System) locks to secure your rack system to the truck bed
- Built in bottle opener—cheers!

#8001151

Integrated tie-down points help easily secure any load.

Easily adjustable height from 19–30".

Easy on-off placement in minutes with our patent-pending QuickChange™ rack attachment.

Yakima HD Bar crossbar sold separately - 60"/68"/78" lengths.

LEARN MORE AT [YAKIMA.COM](http://YAKIMA.COM)

## OutPost™ HD

### MID-HEIGHT TRUCK BED RACK

Built to handle heavy loads on backcountry terrain, the OutPost HD truck rack is ready for rugged overland adventures. The mid-height design provides a low center of gravity, easy accessibility to gear, and the perfect platform for the SkyRise™ Rooftop Tent. Leveraging our new HD Bars for a 500-lb. on-road carrying capacity, and paired with Yakima's 300-lb. Off-Road Rating, the OutPost HD truck rack is a firmly engineered foundation for a fully loaded overland rack system. Pair the OutPost HD truck rack with the HD Bar length that best fits your bed and gear. Add our SideBar™, mounts, and accessories, and you're set to explore the backcountry with confidence.

• **Yakima HD Bar crossbar sold separately for a custom fit**

- Designed and tested for all common truck beds using our BedGrip™ clamp design, including tracked beds and select tonneau covers
- Built to last, with engineered aluminum construction and durable powder-coat finish
- Compatible with all Yakima mounts to carry kayaks, surfboards, bikes, rooftop tents, and more
- Integrated SKS (Same Key System) locks your rack system to the truck bed

#8001152

Integrated tie-down points help easily secure any load.

Fixed mid-height position of 13" provides easy gear access and a low center of gravity.

Easy on-off placement in minutes with our patent-pending QuickChange™ rack attachment.

Yakima HD Bar crossbar sold separately - 60"/68"/78" lengths.

CURRENT PRICING AVAILABLE AT [YAKIMA.COM](http://YAKIMA.COM)

# BedRock™ HD

## LOW-PROFILE HEAVY-DUTY TRUCK BED RACK

Sleek and strong, the BedRock HD's low profile delivers a 300-lb. on-road capacity and Yakima's exclusive new Off-Road Rating for up to 180 lbs.—all without the need to drill into the truck bed. Pair it with the HD Bar length that best fits the bed to carry bikes, skis, cargo boxes, or the SkyRise™ Rooftop Tent—all while preserving valuable cooler-carrying capacity underneath. This powerhouse truck rack provides strength and security, easily accessible tie-down points, and T-slot attachment capability that makes adding gear easy.

- **Yakima HD Bar crossbar sold separately for a custom fit**  
68"/78" lengths
- Built to last, with engineered aluminum construction and durable powder-coat finish
- Designed and tested for all common truck beds
- Integrated SKS (Same Key System) locks the rack system to the truck bed
- Built-in bottle opener—cheers!

## CBX™ SOLAR

### PREMIUM SOLAR CARGO BOX

Sun's out, power's on. The CBX Solar blends clean-lined, modern aesthetics with a first-of-its-kind integrated solar panel. We teamed up with Sunflare to create a solar panel capable of delivering a 36W/5-volt output for when you're adventuring off the grid. With 2 USB ports, it provides enough juice for a small campsite, won't drain power from your vehicle and can charge phones, tablets, camping lanterns and action cameras. An integrated, easy-grab lid handle locks gear inside, and the removable torque tool stows away to free up all 16 cubic feet of available space for your gear.

**CBX SOLAR**  
#8007388

Integrated solar panel is heavy duty to withstand the elements.

Interior converter features two USB ports for charging devices.

Dual-sided opening for easy access on either side of your vehicle.

Removable torque knob ensures a secure installation.

## CBX™

### PREMIUM CARGO BOX

Form, meet function. A carrying option worthy of your vehicle's roof, the CBX combines rugged, trail-ready, aesthetics and an all-new textured surface to raise the cargo box game. The details make the design, with an integrated, easy-grab lid handle that locks gear inside, a removable torque tool that stows away to deliver all available space for your gear, and premium black chrome badging that stands out from the crowd.

**CBX 16**  
#8007387

**CBX 18**  
#8007389

Flattened interior provides more usable space for the gear you need.

Full metal intuitive opening handle locks gear inside the box and the box to the vehicle.

Dual-sided opening for easy access on either side of your vehicle.

Removable torque knob ensures a secure installation.

## SkyBox CARGO BOX

The legend. Combining aerodynamic performance and road-proven durability, the best-selling SkyBox is the perfect choice for families and roadtripping adventurers. Four sizes mean there's definitely one that fits your needs.

## GrandTour™ PREMIUM HIGH GLOSS CARGO BOX

For those who like to travel in style, the GrandTour elevates cargo box design with a premium, sleek look that doesn't sacrifice superior functionality or exceptional capacity. It performs just like Yakima's trusted SkyBox series, but with technical upgrades and an automotive sheen that looks great on your vehicle. It also offers best-in-class features. Upgraded installation with easy to use Torque knob allows for flattened interior for maximum usable space. Beautiful design and premium features make the GrandTour a sleek and adaptable addition to your vehicle.

**GrandTour 16**  
#8007394

### FEATURES

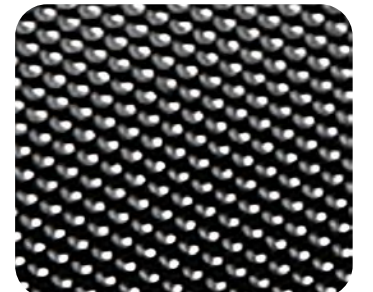

SuperLatch™ security with SKS locks ensures your box is secure.

Easy to mount and remove—no tools or assembly required.

Dual-sided opening for easy access on either side of your vehicle.

Aerodynamic, textured carbonite lid reduces drag and wind noise.

# RocketBox Pro

CLASSIC DESIGN, PRO-LEVEL PERFORMANCE

The RocketBox is versatile yet budget-friendly.

**RocketBox Pro 14**  
#8007192

Dual-sided opening for easy access on either side of your vehicle.

Simple push-button access.

## CARGO BOX HATCH CLEARANCE TIPS

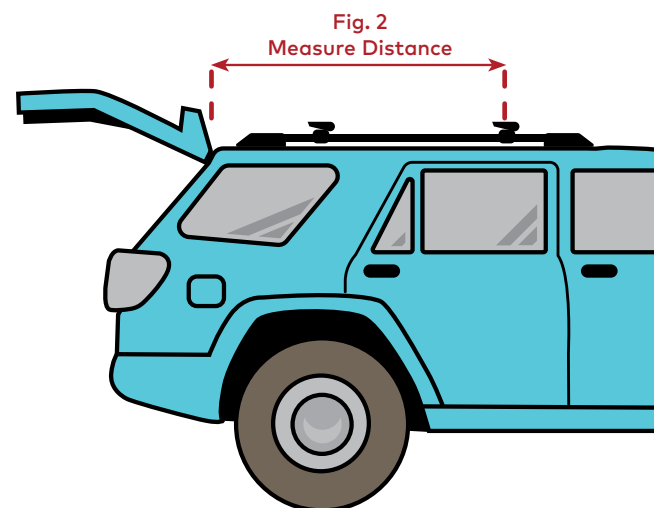

To find the best fit for your cargo box, use the measurement in figure 2 to find the necessary distance for your product. The measurements may require you to adjust your crossbars. Do NOT adjust BaseLine Tower Systems.

**Adjustable Roof Rack Systems:** TimberLine Towers, SkyLine Towers\* with Tracks, RidgeLine Towers\*, OverHaul HD, OutPost HD, BedRock HD, BedRock, Outdoorsman, and most Factory Roof Racks.

\*Some vehicles have a fixed crossbar spread, check yakimatech.com for your vehicle's crossbar capabilities in the measurements section.

### Measure Distance

From the front crossbar, measure from the center of that crossbar to the edge of the open trunk hatch. Make sure that you are measuring across the flat surface of the crossbars.

Product	Minimum Distance	
CBX SOLAR, 16	45"	113 cm
CBX 18	52.25"	132.7 cm
GrandTour 16	48"	114.3 cm
GrandTour 18, Lo	50.75"	137.16 cm
SkyBox 16	47"	132.08 cm
SkyBox 12, 18, and 21	57"	144.78 cm
RocketBox 14	45"	114.3 cm

# WATER CRAFT CARRYING OPTIONS

## BOATS OR BOARDS, WE HAVE AN EASY SOLUTION

There are multiple ways to carry different types of boats and boards. Here is a quick break down of your available options:

**WHAT:** Kayak  
**STYLE:** J-cradle  
**HOW:** Load the boat on it's side.  
**BENEFIT:** Leaves space on the roof rack for other gear mounts.

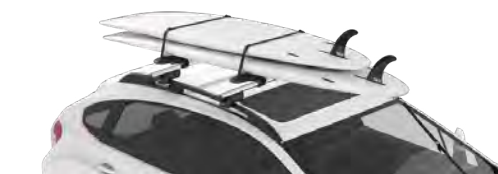

**WHAT:** Kayak  
**STYLE:** Saddle  
**HOW:** Load the boat as it would sit on water.  
**BENEFIT:** Easier to load heavier boats this way, no need to turn it on it's side.

**WHAT:** Kayaks and Surf/SUP  
**STYLE:** Load Assistance  
**HOW:** Load boat or SUPs at waist height.  
**BENEFIT:** No need for multiple people to load the craft onto the vehicle roof.

**WHAT:** Canoe  
**STYLE:** Bracket  
**HOW:** Load the boat upside down.  
**BENEFIT:** Low-profile mount and the only canoe option.

**WHAT:** Surf / SUP  
**STYLE:** Flat Mount  
**HOW:** Load the boards upside down.  
**BENEFIT:** Bring multiple boards, as well as long boards, that you don't have to shove into the trunk.

150 lb. weight capacity.  
That's a big bass boat!

## BigCatch™

### KAYAK FISHING BOAT SADDLES

Bust out the big boats with the BigCatch's whopping 150-lb. capacity. Introducing the first universal kayak saddle built to handle heavy fishing kayaks and sit-on-tops. The rubber-padded saddles conform to the kayak's hull for a super-secure, full-contact carry that's easy on your boat. A simple, tool-free install will load it up faster for even more time to chase the next big catch. If you have T-slot crossbars, don't forget our SmarT-Slot Kit 4 (sold separately) for an even cleaner, more integrated look.

SET OF 4 #8004091

Specially designed to support the extra weight of fishing and sit-on-top kayaks.

Oversized cradle protects the boat and conforms to a variety of hull shapes.

Universal mounting hardware fits our StreamLine, RoundBars, and HD Bars—along with most other crossbars.

### CROSSBAR ADAPTERS

**SmarT-Slot Kit 4**  
Turns BigCatch into a T-slot-capable boat mount.

#8004092

**RoundBar Kit**  
Adapter kit for use with BigCatch on RoundBars.

#8004093

## SweetRoll™

### ROOFTOP KAYAK SADDLE & ROLLER MOUNT

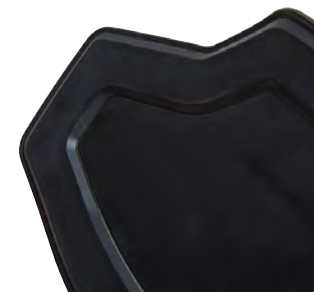

Loading your boat has never been easier than this! Two front and two rear saddles with integrated rollers hold your boat in place. The spring-loaded base automatically adjusts to the boat when loading. Sold in a set of 4.

SET OF 4 #8004074

Add 4 SKS Locks #8007204

Built-in rollers help glide the boat into place.

Rubber saddles protect the hull of the boat.

Pivoting saddle conforms to the shape of the boat.

Add Felt Pads for more protection. (Sold separately | #8004080)

## EvenKeel™

### ROOFTOP KAYAK SADDLES

Versatile. Thrifty. Secure. The EvenKeel provides best-in-class value for carrying your boat.

SET OF 4 #8004052

**DeckHand™**  
PREMIUM ROOFTOP KAYAK SADDLES

Designed for quick and easy loading, and featuring universal mounting hardware that works with just about every crossbar, the versatile DeckHand's padded, flexible cradles conform to your boat's shape for a secure carry.

SET OF 2 #8004083

Add 2 SKS Locks #8007202

Pair with HandRoll for a complete rooftop kayak system.

**HandRoll™**  
PREMIUM ROOFTOP KAYAK ROLLERS

An easy way to load and securely carry your boats, the HandRoll is perfect for any kind of kayak. Durable rollers guide your boat into place, and the universal mounting hardware works with almost any roof rack.

SET OF 2 #8004082

Add 2 SKS Locks #8007202

Pair with DeckHand for a complete rooftop kayak system.

**JayLow™**  
J-CRADLE ROOFTOP KAYAK MOUNT

Versatile, adaptable, and super low-maintenance, the JayLow kayak mount provides maximum loading and minimal fuss. No tools necessary for install with the easy-to-use SpinVice clamp. Carry one kayak in cradle position, or two in stacker position.

#8004073

Add 2 SKS Locks #8007202

Integrated boat ramp for easy loading.

Easy-to-use lever makes adjusting the mount a breeze.

Folds down flat when not in use.

Carry 1 boat in cradle and 2 boats in stacker position.

## ShowDown™

### LOAD-ASSISTING KAYAK AND SUP MOUNT

This mount makes loading and unloading heavy boats and boards a breeze. It tilts down more than two feet from the roof rack, takes on up to 45% of the boat's weight, then helps gently raise it up to the top of the vehicle. Once loaded, it securely cradles your boat or boards for the ride. No tools necessary for install with the easy-to-use SpinVice clamp.

- 80-lb. boat and board capacity easily handles your big kayak or a couple of SUPs
- Weighing only 22 lbs., it doesn't eat up your roof's carrying capacity
- Lowers down a lengthy 26" from roof rack height
- Provides a generous 30-45% weight assistance (depending on boat width)
- Felt-covered cradles flex to conform to your hull for secure transport
- Folds down flat to reduce drag and wind noise when not in use
- All tie-down straps included so you're ready to load right out of the box

#8004081

Add 2 SKS Locks #8007202

## JayHook™

### J-CRADLE ROOFTOP KAYAK MOUNT

Strong and reliable, the JayHook is a simple, secure way to carry any kind of kayak. The design is easy to load and doesn't eat up your rack space.

#8004084

## BigStack™

### KAYAK STACKER

Go BigStack to go big! Mount up to 4 boats on your roof, or use the extra room for a multisport adventure. HullGuard padding keeps your boats safe.

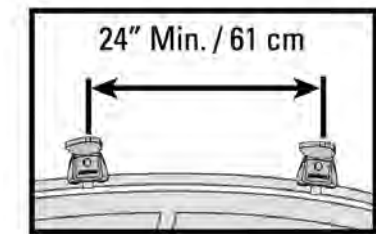

#8004041

Add 2 SKS Locks #8007202

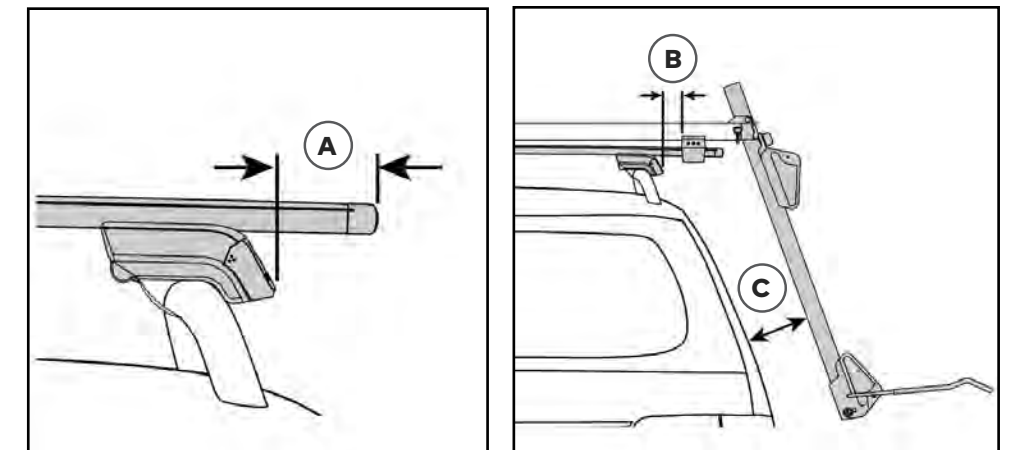

## SHOWDOWN INSTALLATION TIPS

- Pull your mirror in first
- Minimum required crossbar spread is 24"
- Maximum recommended crossbar spread is 42"
- Maximum boat width is 36" with SUP saddle
- Maximum boat width is 28" with standard saddle
- Maximum boat weight is 80 lbs
- Two SUPs maximum
- 2 ShowDowns max per vehicle (60" bars or longer required)
- Please check [yakima.com/fit](http://yakima.com/fit) for your vehicle's compatibility with ShowDown. Not compatible with Q Tower.

## FIT REQUIREMENTS

- A** • Distance from tower face to end of bar - 4" Minimum
- B** • Distance from tower face to inner face of outer ShowDown clamp - 4" Maximum
- C** • Distance from vehicle door to ShowDown in lowered position (unloaded) - 4" Minimum

## ShowBoat™ 66

### LOAD ASSISTANCE

This ingenious load-assist roller slides out over the rear of the vehicle for easy access and vehicle protection while loading and unloading your boat.

- Padded to protect your kayak or canoe during loading and transport
- Works with a variety of kayak and canoe mounts
- Corrosion-resistant stainless steel and brass hardware

#8004068

## BoatLoader™ EVO

### LOAD ASSISTANCE

An easy way to make the load-up less of a chore, the BoatLoader EVO telescopes out 28" from your roof rack to help get canoes, kayaks, and boards up to the roof. When not in use, it stows neatly inside your RoundBar or CoreBar crossbar, ready and waiting for the next trip to the water. It's easier on your back, your boat, and your car's paint job.

#8004085

## KeelOver™

### ROOFTOP CANOE MOUNT

The KeelOver is a compact solution for a big canoe. It attaches directly to any roof rack for a quick, tool-free installation right out of the box.

SET OF 4 #8004069

# BASE CAMP

# SKYRISE BEST PRACTICES

There are loads of different adventure-mobiles out there and no matter what you drive, we want you to travel safe. We have assessed the SkyRise tents on many popular vehicles and designated them as "Certified" or "Not Certified." To find out if your vehicle is "Certified" for use with a Yakima SkyRise tent, [www.yakima.com](http://www.yakima.com)

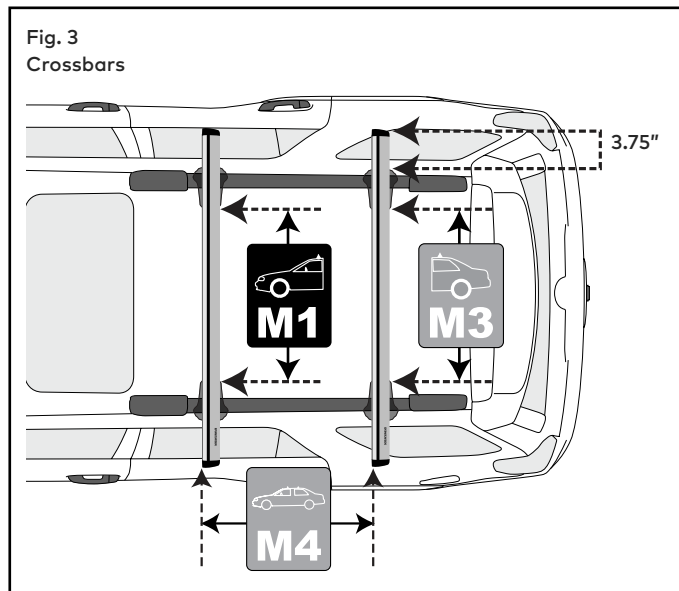

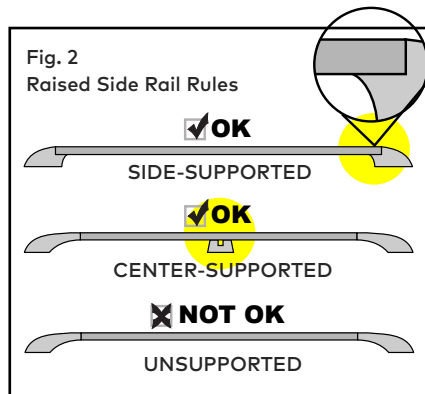

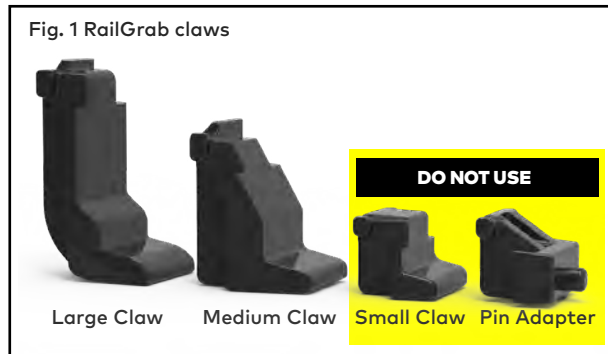

If we have not yet assessed your vehicle, use the guidelines below to evaluate whether your vehicle and rack system may be used with a SkyRise tent.

## IMPORTANT

Use the list below to evaluate your own vehicle and rack for use with the a SkyRise tent. Any installation of a SkyRise tent to a vehicle and rack not listed as a Yakima Certified Fit is at the sole risk and responsibility of the owner / installer.

## VEHICLE EVALUATION GUIDELINES & BEST PRACTICES

- ✓ Vehicle AND roof rack system must have a minimum of 165 lb load-carrying capacity. Check your vehicle owner's manual to find your vehicle's maximum carrying capacity.
- ✓ Vehicle's crossbar spread (M4) must be between 26" and 40.5" when mounting the tent to open to the side of the vehicle, and must be between 26" and 34.5" when mounting the tent to open to the rear of the vehicle. **Fig. 3**
- ✓ The roof rack bars must have a minimum of 26" between the towers (M1 & M3). If not, there must be at least 3.75" of crossbar extending outside the tower, and do not position mounting hardware more than 1" away from the outside of the tower. **Fig. 3**
- ✓ The maximum distance from top of crossbar to ground: SkyRise Small = 86", SkyRise Medium = 98"
- ✗ CANNOT Be used with these Yakima Roof Rack Towers: BaseLine, Q-Tower, RailGrab Tower with Small Claw or Pin Adapter **Fig. 1**
- ✗ Do not use SkyRise with factory crossbars; they are too flexible.
- ✗ Do not use SkyRise if your vehicle's roof deforms or dents when heavy loads are applied.
- ✗ Do not install SkyRise on weak raised siderails of the "unsupported" type, as shown **Fig. 2**.
- ✗ Do not use SkyRise with any clamp-type or clip-style towers, unless specified by Yakima.
- ✗ Use of the SkyRise tent on other brands of roof racks is at your own risk. Please contact your roof rack manufacturer for their recommendation on carrying rooftop tents.

For vehicles with raised rails (see p. 16 to identify roof type), the crossbars must be positioned as close as possible to the side or center rail supports.

## OTHER INSTALLATIONS

**Truck Canopies / Topper / Shells / Truck Bed Covers** — Truck caps plus the SkyRise certainly make a great couple but like any relationship, it's at your own risk. Please contact your truck cap manufacturer for their recommendation and options for carrying rooftop tents on your truck cap.

**Non-Yakima Roof Racks** — At Yakima, your safety is our number one priority. While we highly respect all the players in the game, we cannot certify their roof racks. Please contact your roof rack manufacturer for their recommendation on carrying rooftop tents.

**Custom-Installed Roof Racks** — Custom installation can be a secure method to install a roof rack to your adventure-mobile. Due to the variety of applications, we cannot certify specific custom roof rack installations for the SkyRise tent. This includes custom-installed Landing Pads and tracks onto your vehicle's roof. Please contact the manufacturer of your vehicle for their recommendation and options for carrying rooftop tents.

## SkyRise™ HD HEAVY-DUTY 4 SEASON ROOFTOP TENT

This exciting addition to our SkyRise Family is your hub for the ultimate mobile base camp in any season. The extra-large windows and doors provide grand views and great ventilation—while the thick wall-to-wall foam sleeping pad provides cushy, all-night comfort.

SM 2-PERSON #8007436  
MD 3-PERSON #8007437

- **Tent Body** – 600D Ruggedized polyester fabric with a 3000MM waterproof PU coating
- **Rainfly** – 210D ripstop polyester, 3000MM PU waterproof coating
- Pre-set aluminum tent frame geometry offers more usable space
- Large doors, windows, and skylights open up the vistas
- Guy lines and D-rings on the tent floor to hang gear or tie down the tent in windy conditions
- Abrasion-resistant tent floor with textured finish for added durability
- Ladder has mid-height adjustment points for easy set-up, and auto-close function
- Tool-free attachment and lockable to crossbars, with SpinVice clamps—easy to put on, quick to take off
- Easy-to-deploy design means less work and more play—great when it's dark or raining
- 2.5"–thick foam mattress with removable cover

## RoadShower™

### ROOFTOP SHOWER AND WATER STORAGE

Sandy feet, dirty paws, and mud slung bikes. The RoadShower is your trusty side kick for the convenience of pressurized water in the middle of nowhere. Its dependable attachment to your vehicle or trailer allows you to roam freely. And, while you're out having fun, the sun heats up the water in the tank. Check the thermometer and you can enjoy a hot shower, or blast off mac-n-cheese from campsite dishes.

- Built strong with welded aluminum construction and durable powder coat finish
- Large top-cap allows for easy filling
- Pressurize the tank through the Schraeder air valve or a garden hose
- Pressurize with hand or electric pump - Built in pressure relief valve safely and automatically tops out at 65 psi (max)
- Included garden hose adapter harnesses the pressure of your home water spout and fills and pressurizes at the same time.
- Includes a stick-on thermometer strip for the outside of the tank
- Locks to roof rack with included SKS Locks for added security
- Stainless steel universal crossbar attachment - Easily adjustable back and forth for the right fit

EXO RoadShower Kit #8004112

## SlimShady™ ROOF RACK-MOUNTED AWNING

Don't let its low-profile fool you: this awning packs small and delivers big. From sideline cheers to ridge line views, the SlimShady offers excellent protection from searing sun and sudden showers. It mounts quickly and easily (no tools needed!) to your roof rack crossbars, and only takes up six inches of bar space leaving plenty of room for cargo boxes, bikes, or boats. Super easy to use—just roll it out and set-up the poles—its light, strong polyester canopy has a waterproof PU coating to shed rain and serve up plenty of shady coverage on summer days. Available in three sizes, so you're covered no matter how far, or near, your adventures take you.

- 8' -#8007446
- 6.5' -#8007445
- 4.5' -#8007444

### Awning T-slot Bracket AWNING ACCESSORY

Go sleek with this low-profile t-slot awning bracket and mount up your awning with more options.

#8004113

No tools necessary for install with the easy-to-use SpinVice clamp.

Rolls up into a convenient and durable zippered pouch.

## FISHING ROD CARRIER HATCH CLEARANCE TIPS

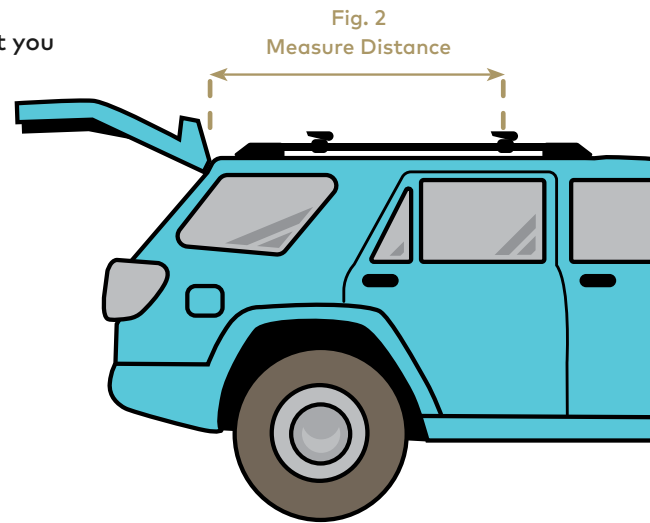

To find the best fit for your rod carrier, use the measurement in figure 2 to find the necessary distance for your product. The measurements may require you to adjust your crossbars. Do NOT adjust BaseLine Tower Systems.

**Adjustable Roof Rack Systems:** TimberLine Towers, SkyLine Towers\* with Tracks, RidgeLine Towers\*, OverHaul HD, OutPost HD, BedRock HD, BedRock, Outdoorsman, and most Factory Roof Racks.

\*Some vehicles have a fixed crossbar spread, check yakimatech.com for your vehicle's crossbar capabilities in the measurements section.

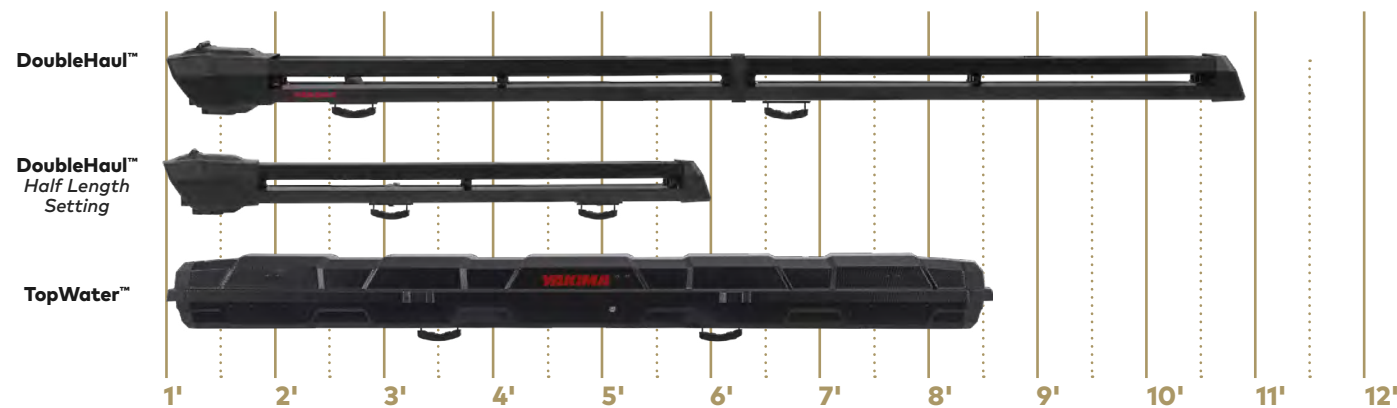

### Measure Distance

From the front crossbar, measure from the center of that crossbar to the edge of the open trunk hatch. Make sure that you are measuring across the flat surface of the crossbars.

Product	Minimum Distance	
DoubleHaul	57"	144.78 cm
TopWater	54"	137.16 cm

## DoubleHaul™ ROOFTOP FLY ROD CARRIER

Like the perfect cast, the deluxe DoubleHaul rooftop fly rod carrier gets you to that special spot on the water at dawn or off to that mid-day hatch. You're there and ready with the perfect set-up: up to 4 fully strung-up rods up to 10 ft. long. Rain or shine, your rods are securely locked and protected from the elements. The reel box is designed to protect and fit most reel sizes, with space to carry up to 2 spey rods. To make things even easier, the DoubleHaul mounts to most roof racks with a simple, tool-free universal crossbar attachment. With modern styling and a unique half-length configuration, it's a perfect fit on any size vehicle. Be ready to hit the water when the fish are biting.

- Transports 4 fully strung-up fly rods up to 10 ft. long
- Custom-fitted felt padding for premium reel protection
- The top 2 reel slots fit most 12-wt. reels and spey rods
- The bottom 2 reel slots fit most 10-wt. reels
- Reel box holds common fighting butts of single-handed rods
- Four individual plastic-lined aluminum rod tubes provide strength and separation for rods while helping prevent abrasion
- Side placement of reels reduces wear on rod-stripping guides and eyelets
- Universal mounting hardware fits all Yakima® crossbars and most other roof racks
- For an even sleeker profile add the SmarT-Slot™ Kit 3 to attach to a T-slot crossbar (sold separately)

#8004087

Configurable at either 11 ft. or 6 ft. to accommodate different vehicle lengths.

Reel box holds up to 2 spey rods in upper slots.

Includes Yakima® SKS Locks to secure rods inside and lock DoubleHaul to roof rack.

## TopWater™ FISHING ROD CARRIER

Ready to go when the fish are biting, the TopWater is a purpose-built, enclosed fishing rod box—keeping you prepared to hit the water with up to 8 fishing rods, up to 8 ft. long—fully rigged, organized, and out of the vehicle. From spin to bait casting to fly rods, the protective foam pads and retention straps keep rods and reels safely suspended in place without getting banged around or entangled. The space below your rods makes room for low-profile tackle boxes or other wet gear. This strong and rugged fishing rod box locks your gear inside and the box to your roof rack. For added ease, the universal attachment secures the TopWater to nearly any roof rack or Yakima's® EasyRider™ and RACKandROLL™ trailers.

- Carry up to 8 fully rigged-up fishing rods of any style, up to 8 ft. long
- Keeps wet rods out of the vehicle, organized, and set up for the day
- Protective foam pads—designed with individual rod slots
- Small drain holes help prevent water from pooling in bottom of the box
- Removable rod holders for 4-season transport of skis and other long gear
- Made in the USA with a sleek, aerodynamic Carbonite®-textured lid
- Universal mounting hardware fits all Yakima crossbars and most other roof racks
- Add the SmarT-Slot™ Kit 5 to attach to a T-slot crossbar for an even sleeker profile (sold separately)
- 50-lb. max weight capacity
- 18" total width leaves plenty of room for fishing kayaks or other gear on your roof rack

#8004088

Side opening for easy access to rigged-up fishing rods.

Rubber retention straps secure rods in place.

Built-in rod shields protect rod tips from damage.

Built-in Yakima SKS Locks secures rods inside and locks TopWater to roof rack.

## ReelDeal™ ROOFTOP FISHING ROD MOUNT

Simple and compact, the ReelDeal fishing rod mount securely carries up to 8 full-length fishing rods of just about any style on your roof rack—instead of in your vehicle. It's the safe, easy way to transport your rods fully rigged-up and ready to fish. The single-button side access makes for quick loading/unloading and the included SKS (Same Key System) locks keep your rods safe and secure.

- Carries up to 8 fully rigged-up fishing rods of just about any style
- 15.5" of full-length padding securely holds and protects rods
- Tool-free clamp design makes install and removal a breeze
- Universal mounting hardware fits all Yakima® crossbars and most other roof racks
- Integrated SKS Locks secure rods in the rack
- ReelDeal™ also can transport up to 2 snowboards and/or 4 pairs of skis

#8004089

Carries up to 8 fully rigged-up fishing rods of just about any style.

Rubber pads protect rods and hold them securely in place.

Integrated SKS Locks secure rods in the rack.
